AMBERSTREAMS OS · AI BUSINESS AUTOMATION

Your business, working *while you sleep.*

AI that finds new customers, answers your WhatsApp and email enquiries around the clock, and briefs you every morning. Set up and run for you by AmberStreams, so you can focus on closing deals.

🔎 Finds customers | 💬 WhatsApp & email, 24/7 | ☀️ Briefs you daily

✦ Coming soon: Facebook, Instagram and TikTok messages in the same place

SOUND FAMILIAR?

Growing a business is hard when you're doing everything yourself.

Enquiries arrive at 10pm.

By morning, the buyer has already moved on to someone who replied first.

New customers are out there.

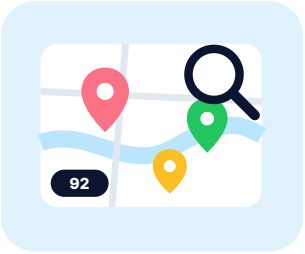

You know it, but there's never time to find them, research them and reach out.

You find out too late.

Unpaid invoices, missed follow-ups and slow weeks only show up when it's too late to fix them.

THE FIX

Meet your three new teammates.

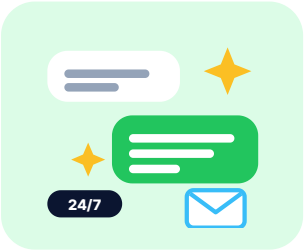

THE SCOUT

Finds your next customers for you

Every week it searches Google Maps for businesses that match your ideal customer, scores each one against that profile, puts the strongest matches first and suggests the best opening approach.

- ✓ Searches your city and sector
- ✓ Strongest matches first
- ✓ Opening message ready

THE AI ASSISTANT

Answers WhatsApp and email, day and night

Replies on your WhatsApp in seconds and to your business email within minutes, using your own products and prices. It takes bookings and hands over to your team when a person is needed.

- ✓ Never leaves a buyer waiting
- ✓ Speaks for your business, not a script
- ✓ Your team can step in any time

THE MORNING BRIEFING

Starts every day with the full picture

One email each morning: money that came in, new leads, who to follow up today, and anything that needs your attention, before it becomes a problem.

- ✓ Sales and payments at a glance
- ✓ Today's follow-ups, ready
- ✓ Instant alerts for what matters

HOW IT WORKS

Live in about a week. No technical skills needed.

1

We learn your business

A 30-minute call about what you sell, your prices and your ideal customers.

2

We set it all up

Your WhatsApp number, business email, scout searches and briefing, connected and tested within 7–10 days.

3

You grow, we run it

We monitor it, tune it and review results with you every month.

You stay in control. Always.

- Your WhatsApp number, email, customers and data stay yours.
- Nothing goes to a new prospect without a person on your team approving it.
- Built around WhatsApp's rules (daily limits, easy opt-outs) to protect your number.
- We run AmberStreams on this same system every day.

SIMPLE PRICING

Pick the plan that fits where you are.

THE SCOUT Your weekly lead list

Every Monday morning

Sample Homes & Estates — 92

Real estate agency · GRA, Port Harcourt

★ 4.8 (73 reviews) ☎ 0803 000 0001

✉ info@samplehomes.ng 🌐 Has a website

Why it's a strong match: busy, well-reviewed firm in your target area; likely handles many enquiries.

Suggested opener: *"I came across Sample Homes on Google Maps, and 4.8★ from 73 reviews says a lot about how you treat buyers..."*

Sample Fabrics House — 80

Clothing store · Mile 1, Port Harcourt

★ 4.6 (41 reviews) ☎ 0803 000 0002

× No website

Why it's a strong match: popular store with no website, so customers can't find it online.

Suggested opener: *"Customers usually check online before they visit, and right now there's no website of your own for them to find you..."*

Every lead includes: name, type of business, area, phone, email (when published on their website), website status, Google rating and reviews, a match score, the reason it ranks where it does, and ready-to-edit opening messages for WhatsApp and email.
How many? Each search area returns up to 60 businesses. Narrow or specialist markets return fewer, and we tell you upfront what your market can support.

GOOD QUESTIONS

What counts as an "AI chat"?

One customer's conversation with the assistant, on WhatsApp or email, within 24 hours, however many messages it has. Growth and Pro include 3,000 a month.

Is anything else charged?

WhatsApp (Meta) charges small message fees directly to your own account, and 7.5% VAT applies.

Who owns the data?

You do. Your customers, chats and records belong to your business, and we handle them under the Nigeria Data Protection Act.

What if we go over 3,000?

We warn you when you reach 80%. Anything above is billed at our AI cost on your next invoice, never without notice.

Do I need to be technical?

No. We set everything up, connect your WhatsApp number and business email, and train the assistant on your products and prices.

Will the AI say the wrong thing?

It only uses information you approve, hands over to your team when unsure, and you can read every chat and email.

Let's see what it finds for you.

Book a free 15-minute demo. We'll run a live scout on your market and show you the businesses it finds, before you spend a kobo.

Prices are in Nigerian naira and exclude 7.5% VAT and WhatsApp (Meta) message fees, which Meta bills to your own account. An AI chat is one customer conversation within 24 hours; use above the monthly allowance is billed at cost after an 80% usage warning. Founding offer limited to our first five businesses, subject to a signed service agreement. Prices valid until 28 February 2027.
